City of Castroville Returns to Stage One Watering Restrictions

Castroville, TX, (November 03, 2015) – Effective October 31, 2015, the City of Castroville returned to Stage One Watering Restrictions.

Stage One restrictions state that residents can water their landscapes once per week on their designated day, which is determined by the last number of the street address: if the last digit of the street address is a zero or one, water on Monday; two or three on Tuesday; four or five on Wednesday; six or seven on Thursday; and eight or nine on Friday. Those without a street address water on Wednesday. Sprinklers and irrigations systems are only allowed before 10 am and after 8 pm on the designated day.

Visit the City of Castroville website (www.castrovilletx.gov) for more information.
